The wait is finally over for Ciara and Russell Wilson! The high-profile couple — who publicly pledged to abstain from sex until marriage — said “I do” in England on Wednesday. While they confirmed they consummated their relationship on their wedding night, we can’t help but wonder if their decision to remain celibate until marriage will ultimately work in their favor.

The Insider With Yahoo sat down with *Million Dollar Matchmaker*’s Patti Stanger who says she thinks it’s important to “test drive the car” before you buy it. The WEtv host went on to explain that she just doesn’t think abstaining is “realistic” and that “a lot more problems come after the fact.”

Speaking of problems, Stanger shared her thoughts on Ben Affleck and Jennifer Garner’s “poor little relationship” too, explaining that she thinks Affleck is “sad” and “feels sorry” for him.

One couple she is rooting for is Taylor Swift and Tom Hiddleston. “I want it to be real,” she said. “I think it’s real. If it’s not, I’m going to be pissed.”

Check out this video to find out what Stanger had to say about other celeb pairings such as Jay Z and Beyoncé, and tune in to *The Insider With Yahoo* on TV tonight for the latest in entertainment news.
